A stylized, handwritten signature in black ink, appearing to read 'Marcel Rodman', is positioned in the bottom left corner of the white band.

**Marcel Rodman,**

the captain of Slovenian national hockey team,  
presents FIDA Ice skating surfaces

# You can skate everywhere and all year round or you can use the surface for other sports!

FIDA **ice** skating surfaces enable skating in all the seasons, no matter the weather conditions.

No expensive construction alternations before the installation.

Low maintenance expenses.

FIDA **ice** skating surfaces are not slippery when wearing normal footwear; you can play basketball or football or even dance on them.

# First-rate gliding - just like on natural skating surfaces

FIDA **ice** skating surfaces are made of **high molecular polyethylene panels** that enable first-class gliding.

Lab tests have proved that friction between the ice skate blade and the panels is minimal; therefore **gliding is only 5 to 10 % worse than on a natural ice rink.**

Even the experienced skaters will hardly be able to notice the difference between skating on natural skating surfaces and skating on FIDA **ice** skating surfaces!

# Put up your skating surface anywhere you like - indoor or outdoor

**Do you want your skating surface square, round or in any other shape?** There are numerous possibilities - we can adapt the shape of the skating surface and the fence to the space. The only requirement is a rather solid and even surface.

## FIDA ice - Puzzle

size of the panel: **1000 x 1000 mm**  
weight of the panel: **18 or 20 kg**  
thickness of the panel: **18 or 20 mm**  
the edges in the shape of a puzzle  
enable quick installation and removal  
of the skating surface indoor or  
outdoor

## FIDA ice - PriceLess

size of the panel: **2000 x 1000 mm**  
weight of the panel: **36 or 40 kg**  
thickness of the panel: **18 or 20 mm**  
the edges in the shape of the letter L  
and the additional pins enable a  
quick installation of the skating  
surface indoor or outdoor

Skate 365 days a year!

With the use of modern and environmentally friendly materials skating is no longer just a winter sport!

# Become a member of FIDA ice community!

Thousands of satisfied ice-skaters and other athletes enjoy skating and perform skating manoeuvres every day on more than 10.000 m<sup>2</sup> of skating surfaces in various European countries.

The Hague (the Netherlands) - 800m<sup>2</sup>  
Munich (Germany) - 350 m<sup>2</sup>  
Cadiz (Spain) - 400 m<sup>2</sup>  
Trieste (Italy) - 500 m<sup>2</sup>  
Lake Constance (Switzerland) - 400 m<sup>2</sup>  
Hannover (Germany) - 400 m<sup>2</sup>

# Test our skating surface on your front or back yard

Find out the advantages of FIDA **ice** skating surfaces by yourself!

Give us a call and we will put up a try-out FIDA **ice** skating surface in the size of 40 m<sup>2</sup> (8 x 5 m) on your front or back yard.
